

Fermi Users Group

Data Analysis Workshops

Chris Shrader,
Fermi Science support Center
NASA/GSFC

Data Analysis Workshops

- First workshop scheduled for Oct. 1 at GSFC
 - Solicitation letter sent 8/26
- 1-day, focus on hands-on activities
- Participants have software installation on laptop (or at home institution w/remote log in access)
- Test data to be posted prior to event
- Strongly encourage participant preparation
- Reading of docs, assess SW prior to event
- ~25 participants
 - Larger group limits 1-on-1 interactions

Future Workshops

- To be planned based on initial experiences
- Regional venues
 - Will query communities in advance
 - Suggestions welcome
- Most useful once people have climbed basic learning curve
- Anticipated activity peaks
 - Fermi Symposium (too soon to accommodate?)
 - Proposal cycle
